

ST. HYACINTH CEMETERY
N43*40.36 – W70*21.0

St. Hyacinth is Westbrook's active Catholic cemetery and it has a preponderance of French family stones in the older section. In keeping with the French history of the City of Westbrook, we have recorded these transcriptions in French as written on the stones.

Around the turn of the century there was a section of burials marked only by a numbered Iron Cross; the name was recorded in the priest's record book but not on the cross. According to City lore, during WW II the iron crosses were removed and the iron donated to the war effort and burial sites were no longer evident. Thanks to Phil LaViolet of Westbrook who has a copy of the priest's record book, we have included the listings for these burials (identified in this transcription by a cross [+]). This data was translated from the original handwritten French so there may be errors in spelling and translation. Most of these 'Iron Cross' names do not have any stones marking their burial places.

* Denotes that no stone was seen in 2002 but names were on earlier transcriptions. If data was not taken from the stone but from cemetery records or obituaries, the entry is so marked.
